### **SAT “COLLEGE READINESS” SCORES DECLINE AGAIN DEMONSTRATING FAILURE OF TEST-DRIVEN K-12 SCHOOLING; MANY MORE COLLEGES IGNORE SAT/ACT EXAM RESULTS AS TEST-OPTIONAL ADMISSIONS MOVEMENT SURGES**

SAT scores for high school seniors dropped again this year continuing a ten-year trend, according to data released today. SAT averages declined by 28 points since 2006 when the “No Child Left Behind” public school testing mandate went into effect. Score differences between racial groups increased, often significantly, over that period.

Bob Schaeffer, Public Education Director of the National Center for Fair & Open Testing (FairTest), said, “Test-and-punish policies, such as ‘No Child Left Behind’ have clearly failed to improve college readiness or narrow racial gaps, as measured by the SAT. Average SAT Scores declined since 2006 for every group except Asian-Americans. The ACT admissions exam and the National Assessment of Education Progress show similar trends.”

Schaeffer continued, “Fortunately, many more college and universities are recognizing that standardized exams fail to measure key factors for academic success. Over the last twelve months, 27 more schools have dropped ACT/SAT requirements for all or many applicants. New test-optional institutions include George Washington, Drake, Allegheny and Virginia Commonwealth.” A list of 850 institutions that de-emphasize admissions tests is posted at <http://www.fairtest.org/university/optional>.
